Decision Record: Approve SQL Server Connector (Non-PHI Only)

Document control	
Document ID	DR-2026-003
Document type	Decision Record
Date	2026-07-14
Status	Accepted
Review IDs	TRB-2026-003
Feature keys	SQL Server (cloud + on-prem)@Ingestion
Classification	Internal – Synthetic Sample

> Acme Health Plan is fictional. This is a synthetic sample document for the Databricks Feature Tracker.

Feature: SQL Server Connector (cloud + on-prem)
Status: Accepted (Approved, scope Non-PHI only; conditions COND-003-1 and COND-003-2 attached; re-review when the connector reaches GA)
Date: July 14, 2026
Phase: Public Preview

Decision

APPROVED for Non-PHI data only. Conditions: COND-003-1 (non-PHI table restriction), COND-003-2 (on-prem TLS audit). Re-review trigger: if Databricks phase → GA.

Rationale

Feature is Public Preview. TRB charter excludes Public Preview from PHI scope without full re-review at GA.

Conditions

ID	Requirement	Deadline
COND-003-1	Non-PHI tables only; monthly audit	2026-08-14
COND-003-2	On-prem TLS validation	2026-09-14

Approved By: [CISO] — Date: July 14, 2026

Classification: Internal – Synthetic Sample
