Exception ID: EXC-2026-002
Request: Beta pilot of Knowledge Assistant using synthetic/non-PHI data only
Submitted: August 10, 2026
Decided: August 11, 2026

Request

Approve sandbox pilot of Beta Knowledge Assistant (TRB-2026-006) using synthetic member demographics. Non-production test environment only. 90-day pilot to evaluate usability before GA.

Board Approval

Voted: August 11, 2026 — **APPROVED** (unanimous)

Terms:
- Duration: 90 days (Aug 11 – Nov 11, 2026)
- Data: Synthetic only (no real PHI)
- Scope: 3 internal analysts
- Monitoring: Weekly log review

Rationale

Beta pilot is non-production, synthetic-data only. Risk is low. Allows TRB to gather usage data before GA re-review.
