Date	2026-05-08
Status	Submitted
Meeting	TRBM-2026-05-19
Review IDs	TRB-2026-029
Feature keys	HIPAA@Security & Networking
Classification	Internal – Synthetic Sample

> Acme Health Plan is fictional. This is a synthetic sample document for the Databricks Feature Tracker.

Review ID: TRB-2026-029 · **Feature:** `HIPAA@Security & Networking` · **Databricks phase at submission:** GA
Requesting business unit: Information Security · **Submitted:** 2026-05-08 · **Scheduled for:** TRBM-2026-05-19
Primary reviewer: Compliance Officer

Business need

Compliance Officer submitted the HIPAA profile as the specific security and privacy posture for the payer's regulated data. TRB reviewed controls mapping to 45 CFR 164 Privacy and Security Rules.

Intended use cases

- HIPAA-regulated data handling
- Protected health information workloads
- HIPAA audit and compliance reporting

Risks identified by the requester

- Controls incomplete for all HIPAA subparts
- Breach notification workflow not in Databricks
- Workforce training requirements outside platform

Proposed mitigations

- Controls matrix maps UC features to 45 CFR 164 controls
- Breach procedures documented in payer playbook (out-of-band)
- SSO/SCIM enforces identity provider training compliance
