TRB Meeting Minutes: 2026-05-05 (Platform baseline review)

Document control	
Document ID	MIN-TRBM-2026-05-05
Document type	Meeting Minutes
Date	2026-05-05
Status	Final
Meeting	TRBM-2026-05-05
Review IDs	TRB-2026-010, TRB-2026-011, TRB-2026-031
Feature keys	Unity Catalog@Platform & Governance; Audit logs@Platform & Governance; SSO / SCIM@Security & Networking
Classification	Internal – Synthetic Sample

> Acme Health Plan is fictional. This is a synthetic sample document for the Databricks Feature Tracker.

Attendees: CISO, Chief Privacy Officer, Enterprise Architect, Platform Engineering Lead, Data Governance Lead, Compliance Officer · **Quorum:** met · **Format:** hybrid

Decisions and introductions

TRB-2026-010: Unity Catalog → Approved (scope: PHI)

Presented by Enterprise Data Platform; lead reviewer Data Governance Lead.

UC is approved as the payer's single governance layer over all catalogs and PHI. The metastore region limitation is accepted as tolerable; cross-region PHI access will use Delta Sharing with explicit approvals.

TRB-2026-011: Audit logs → Approved (scope: PHI)

Presented by Information Security; lead reviewer CISO.

Audit logs are approved as the payer's audit source. Retention follows the enterprise records-retention policy (7 years), implemented by the platform team through audit-log delivery and system-table exports; all production workspaces must deliver audit logs.

TRB-2026-031: SSO / SCIM → Approved (scope: PHI)

Presented by Information Security; lead reviewer CISO.

SSO and SCIM are approved and required for enterprise access control. All users must authenticate via Okta SSO. Local accounts are prohibited for PHI workspaces.
