TRB Meeting Minutes: 2026-06-02 (Platform baseline review)

Document control	
Document ID	MIN-TRBM-2026-06-02
Document type	Meeting Minutes
Date	2026-06-02
Status	Final
Meeting	TRBM-2026-06-02
Review IDs	TRB-2026-013, TRB-2026-014, TRB-2026-015
Feature keys	Auto Loader@Ingestion; Lakeflow Declarative Pipelines (DLT)@Pipelines & Data Engineering; Lakeflow Jobs (Workflows)@Pipelines & Data Engineering
Classification	Internal – Synthetic Sample

> Acme Health Plan is fictional. This is a synthetic sample document for the Databricks Feature Tracker.

Attendees: CISO, Chief Privacy Officer, Enterprise Architect, Platform Engineering Lead, Data Governance Lead, Compliance Officer · **Quorum:** met · **Format:** hybrid

Decisions and introductions

TRB-2026-013: Auto Loader → Approved (scope: PHI)

Presented by Claims Operations; lead reviewer Platform Engineering Lead.

Auto Loader is approved as the standard incremental ingestion path for claims and eligibility. File notification mode is required for high-volume EDI drops; directory listing is acceptable for lower-volume feeds.

TRB-2026-014: Lakeflow Declarative Pipelines (DLT) → Approved (scope: PHI)

Presented by Claims Operations; lead reviewer Platform Engineering Lead.

DLT is approved as the enterprise standard for building and curating trusted claims and member tables. Expectation failures must be monitored; quarantine tables are part of the standard architecture.

TRB-2026-015: Lakeflow Jobs (Workflows) → Approved (scope: PHI)

Presented by Claims Operations; lead reviewer Enterprise Architect.

Workflows is approved as the enterprise standard for all scheduled and multi-step workloads. All production claims, eligibility, and reporting jobs must use Workflows.
