TRB Meeting Minutes – August 11, 2026

Document control	
Document ID	MIN-TRBM-2026-08-11
Document type	Meeting Minutes
Date	2026-08-11
Status	Final
Meeting	TRBM-2026-08-11
Review IDs	TRB-2026-006, TRB-2026-008
Feature keys	Knowledge Assistant@Generative AI & Agents; Databricks Apps@Apps & Developer Tools
Classification	Internal – Synthetic Sample

> Acme Health Plan is fictional. This is a synthetic sample document for the Databricks Feature Tracker.

Meeting ID: TRBM-2026-08-11
Date: August 11, 2026
Time: 10:00–11:00 AM ET
Quorum: ✓ Yes (8/8 present)

Decisions

1. TRB-2026-006: Knowledge Assistant (Generative AI & Agents)

Requestor: [Enterprise Architect]
Databricks Phase: Beta
Review Status: Under Review (Beta pilot)

Decision: 🔄 **UNDER REVIEW CONTINUED** – Non-PHI pilot approved for 90 days.

Rationale: Knowledge Assistant is still Beta. TRB approves **sandbox pilot only**: ≤5K synthetic member demographics (no real PHI, no real claims). Goal: evaluate usability and LLM output quality. At GA, will conduct full risk assessment for PHI use.

Pilot Conditions:
- Data: Synthetic only (no real member SSN, medical record, claims data)
- Scope: 3 internal analysts, Databricks Q&A use case
- Duration: 90 days (until Nov 11, 2026)
- Audit: Weekly log review; no data export permitted

Next Step: Re-review at TRBM-2026-11-24 when Databricks targets GA (expected Nov 2026).

---

2. TRB-2026-008: Databricks Apps (Apps & Developer Tools)

Requestor: [Enterprise Architect]
Databricks Phase: GA
Review Status: Under Review

Board Discussion:
- **CPO:** "What data can a Databricks App display?" → **Answer:** Apps query Databricks SQL; query results displayed in web UI. Masking/filtering applies.
- **CISO:** "If an app is developed by an external consultant, how do we control the code?" → **Answer:** Apps are published to a workspace and must pass code review before production. Access control via UC roles.
- **Compliance Officer:** "Audit trail for app interactions?" → **Answer:** App queries are logged in query audit logs; no separate audit trail for UI interactions yet.

Decision: 🔄 **UNDER REVIEW** – Requesting additional documentation on app code review process and access control. Defer to TRBM-2026-08-25.

Exception Approvals

EXC-2026-002: Knowledge Assistant Sandbox Pilot

Requestor: [Enterprise Architect]
Request: Beta pilot of Knowledge Assistant using synthetic/non-PHI documents only (non-production test environment).

Board Discussion:
- **CISO:** "What's the scope?" → **Answer:** 3 internal analysts, ≤5K synthetic member demographics, 90 days.
- **CPO:** "Can we monitor what questions are asked?" → **Answer:** System logs enabled; TRB can audit question patterns.
- **Compliance Officer:** "If a tester accidentally asks about real members?" → **Answer:** System contains synthetic data only; no real member records available.

Board Vote:
- CISO: ✓ Approve
- CPO: ✓ Approve
- Enterprise Architect: ✓ Approve
- All others: ✓ Approve

Decision: ✓ **APPROVED**

Exception Terms:
- Duration: 90 days (Aug 11 – Nov 11, 2026)
- Data: Synthetic only; no real PHI
- Scope: 3 internal analysts; Q&A use case
- Monitoring: Weekly log review by TRB

Exception ID: EXC-2026-002
Expires: November 11, 2026

Next Meeting

Date: August 25, 2026, 10:00 AM ET

Approved By: [CISO] — Date: August 15, 2026

Classification: Internal – Synthetic Sample
